

# Ultra Portable Solar Cooker

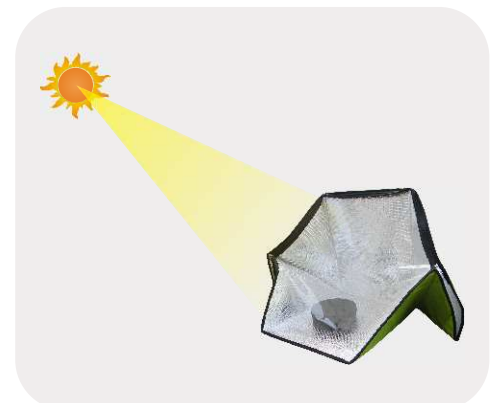

Nvis 445T

This Portable Solar Cooker runs on solar energy. The rays are concentrated inside the Cooker and heat gradually rises and heats up your food. This unique design uses the Sun's light energy and converts it into heat energy by concentrating it at one location. By using a black cooking pot the heat becomes trapped and commences cooking.

## Features

- Handy and Portable
- Quick to set up
- Light in weight
- Easy to use
- Provided with box stand

Subject to Change
