

# Advanced Level Bidirectional Visitor Counter Nvis 32D

Nvis32D Bidirectional visitor counter is a circuit used to show the number of people entering & leaving a room. To demonstrate this, the user can use any opaque object to cut link between the two IR pairs. Depending on the direction of movement the display is either incremented or decremented.

The circuit is constructed using IC AT89C52

## Features

- Visualization of output on seven segment display.
- Depending on the direction of movement the display is either incremented or decremented.
- Simple and easy to perform.
- Descriptive operating manual with procedure

## Technical Specifications

DC Power Supply : 9V Battery

IC : AT89C51, 7805, LM324

Crystal : 11.0592 Mhz

Designed & Manufactured in India by

**Nvis Technologies Pvt. Ltd.**
