

Beginner Level Fire Alarm Nvis 20D

The fire alarm circuit employs a simple mechanism to detect fire in the vicinity and sound an alarm. The heat sensing is done by a germanium diode Germanium Diode DR25 while the alarm is sounded by the NE555 timer IC.

Features

- Audible output for indicator of fire.
- Safe and easy to perform.
- Descriptive operating manual with procedure.
- Circuit diagram with PCB Layout for better understanding.

Technical Specifications

DC Power Supply : 9V Battery

IC : NE 555

Diode : DR25

Designed & Manufactured in India by

Nvis Technologies Pvt. Ltd.
