

Physics Eddy Current Nvis 102D

Eddy current kit facilitates an easy way to understand the concept of eddy current and Lenz's law. Here we produce the changing magnetic field through the freely falling magnet due to which eddy current is generated in the conductor which creates a magnetic field that opposes the falling of magnet

Features

- A visible and practical demonstration of magnetic behaviour
- A Comprehensive and self contained system.
- Very easy to operate

Technical Specifications

Cylindrical Magnet (Alnico)

Aluminum Hollow Cylinder

Metal Object

Designed & Manufactured in India by

Nvis Technologies Pvt. Ltd.

141-A, Electronic Complex, Pardesipura, Indore-452010, India.
